PROJECT DESIGN PHASE-II: REQUIREMENT ANALYSIS

Data Flow Diagrams

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Project Design Phase-II Data Flow Diagram & User Stories

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: (Simplified)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

Figure 1: Simplified system flow and Level 0 Industry Standard DFD for BookStore application.

User Stories

Use the below template to list all the user stories for the product. This details how various user roles (Customers, Sellers, and Admins) interact with the functional epics of the system.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail		Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password		High	
	Dashboard					
Customer (Web user)						
Customer Care Executive						
Administrator						

Figure 2: MERN Bookstore customer and administrator User Story catalog template.

Functional User Stories Summary:

1. As a Customer, I can register and login securely to access my catalog dashboard (Priority: High / Sprint 1).
2. As a Customer, I can search books by title/genre and checkout instantly by providing my shipping address (Priority: High / Sprint 1).
3. As a Seller, I can list books with cover image uploads and update order shipping logs (Priority: High / Sprint 1).
4. As an Admin, I can approve pending seller registrations and delete outdated user order records (Priority: High / Sprint 2).
